Details of the pre-application advice received
Confirmed that in terms of the principle of the development, there would be no objection. Confirmed that the archaeological desk-based assessment produced by the Glamorgan-Gwent Archaeological Trust is considered to provide sufficient information on the impact on the Incline Haulage Systems, Cefn Ynysfeio Scheduled Monument and its setting. Advised that the project needs to consider the risk of flooding to properties downstream of the site from conveyance of flows from the site, that Sustainable Drainage Systems Approval from the Sustainable Drainage Approval Body (SAB) will be needed prior to commencement of works, and the potential need for Ordinary Watercourse Consent. Advised on the ecology issues relevant to the local area and coal spoil tip habitats to be considered in the design, that details on construction access and traffic be provided, and that a Coal Mining Risk Assessment would need to accompany the application.
